Map 5 — Environment and Food Production Areas

Mount Barker-Murray Bridge corridor
- Enable major primary production and agri-business investment and development, including water infrastructure projects
- Prevent adhoc land use changes that may compromise investments

Northern Adelaide and Barossa Regions
- Enable major primary production and agri-business development, including water infrastructure projects anticipated by the Northern Economic Plan
- Prevent adhoc land use changes that may compromise investments

Virginia horticulture district
- Avoid further fragmentation or loss of areas currently zoned for primary production
- Ensure land use planning in and around the district aligns with projects for industry growth and revitalisation anticipated by the Northern Economic Plan
